

PARTNERSHIP & ADVERTISING

Your banner could be here.

Reach music lovers and DJs who use SpotiArt Studio every day — with a brand-safe, non-intrusive sponsor banner right on the home dashboard.

01 What is SpotiArt Studio?

A private, browser-based music studio and DJ console. Users upload their own tracks, organise playlists, tune a 13-band equalizer, run reactive visualizers and mix in a professional dual-deck DJ console — all in one polished app at spotiart.pl.

100%

Browser-based — nothing to install, works on desktop & mobile

DJ

Dual decks, FX rack, automix & BPM/key analysis draw a pro audience

PWA

Installable app — returning, engaged listeners, not one-off visits

02 Who you'll reach

An audience that lives and breathes music — exactly the people worth reaching for audio gear, labels, events, plugins, streaming services and creative brands.

DJs & producers

Power users of the DJ console, EQ profiles and FX — receptive to controllers, software, sample packs and events.

Everyday music lovers

Listeners building private libraries and playlists — open to headphones, streaming, merch and concerts.

Creators & hobbyists

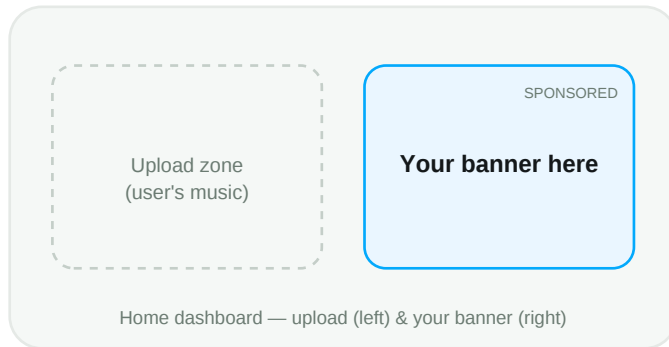

People who care about sound quality and aesthetics — a premium, design-savvy segment.

Returning users

The app installs as a PWA and stores libraries locally, so people come back — your banner is seen more than once.

03 The placement

A rotating banner slot sits right next to the upload area on the home dashboard — the first screen every user sees. Clearly marked “**Sponsored**”, it rotates smoothly between campaigns and never blocks the app's features.

- ✓ Above the fold, on the main dashboard
- ✓ Auto-rotating slider — multiple sponsors, fair exposure
- ✓ Clearly labelled “Sponsored” for full transparency
- ✓ Click-through to your website (opens in a new tab)
- ✓ Non-intrusive — no pop-ups, no interstitials, no autoplay sound

04 Banner specifications

ITEM	RECOMMENDED	NOTES
Dimensions	800 × 300 px	~16:6 landscape; scales responsively
Format	WEBP, PNG or JPG	Static image (animated on request)
File size	Up to 200 KB	Keeps the app fast for everyone
Destination	Your HTTPS URL	Opens in a new tab, rel="sponsored"
Safe text zone	Center 90%	Avoid critical text near edges
Lead time	2 business days	From approved creative to live

05 Why advertise with us

- ✓ **Brand-safe environment** — a clean, ad-light music app; your banner isn't lost in clutter.
- ✓ **Privacy-first** — no third-party ad networks, no tracking cookies; served from our own hosting.
- ✓ **Engaged, returning audience** — an installable studio people use repeatedly.
- ✓ **Flexible & personal** — work directly with the studio, not an ad exchange.
- ✓ **Founding-sponsor pricing** — early partners get preferential rates and prime rotation.
